The Daily Big 3

This is a great time while we are out of school for you to start practicing taking care of your overall wellness on your own. But don't worry, I'm here to guide you! The Daily Big 3 are three things you can do while you're out of school to take care of your physical and mental wellness. Fill in the date for each day and check off items as you complete them.

- Each day you will work on a skill that helps with mental or emotional wellness.

Why are we doing this? As humans, we are going to feel a variety of emotions and feelings throughout our lives every day. Practicing skills to help manage them is really important and can be difficult. A lot of times our decisions can be related to our emotions. The better we get at managing and recognizing our emotions, the better we will get at making healthier decisions.

- You will also complete some kind of physical activity.

Why are we doing this? Being physically active regularly is a healthy habit, not just for our physical health, but it helps with our mental and emotional health, too. When we are physically active, we can improve our mood immediately and we are using up energy which can help us have more restful sleep. If we practice making physical activity a part of our day now, it will be easier to do when we are adults and are busier.

- After you complete the activities you will reflect on them.

Why are we doing this? Figuring out why we do what we do is important so that we can create healthy habits. If we take moments to pause and reflect, we can figure out why we like something (or don't), why we may have done something, we can figure out ways to improve going forward, and sometimes it's even a really good way to vent! It's healthy to learn about ourselves and be able to do things that are meaningful to us as individuals.

Click on the links below to take you to that day's Daily Big 3.

Day 3	
Day 4	
Day 5	

Day 1 (Date: _____)

- Start and end your day with a Mindful Minute.**
A Mindful Minute is 60 seconds of quietness in the present moment. Don't think of anything that has already happened or anything that will happen in the future. If your mind starts to wander, focus on your breathing. A Mindful Minute is a great tool to use any time of day especially if you feel overwhelmed, anxious, mad or just need to focus.
 - Start of the day Mindful Minute
 - End of the day Mindful Minute

- Try a Tabata workout.**

Today try a Tabata workout. A Tabata work out is a workout that consists of 20 seconds of high-intensity activity followed by 10 seconds of rest on and off for eight rounds.

Here is a workout to try:

- Complete eight rounds of 20 seconds of bodyweight squats followed by 10 seconds of rest
- Complete eight rounds of 20 seconds of push-ups (on your knees is okay) followed by 10 seconds of rest.
- Complete eight rounds of 20 seconds of mountain climbers followed by 10 seconds of rest.

What did you think? Choose all that apply.

- This was fun!
 - Not for me.
 - I would do a Tabata workout again.
 - It was challenging.
- Reflect on the day.**

On a separate piece of paper or on the back of this page answer the following questions.

- How did you feel before, during and after your Mindful Minutes? Things to consider in your answer are determining if you found it difficult to be in the present moment or why you were feeling a certain emotion.
- Do you feel a Mindful Minute is something you would do regularly? Why or why not.
- Explain why you selected your answer for the Tabata workout response above.

Day 2 (Date: _____)

- **Try progressive muscle relaxation.**
Progressive muscle relaxation is a way to relax your body by tightening your muscles then relaxing them. You lay down and start at your head, squeezing and relaxing different muscles in your face, and work all the way down to your toes. Like a Mindful Minute, this is a great tool to use if you feel overwhelmed, anxious, mad or just need to focus.

Start progressive muscle relaxation with these areas of your body listed below. Squeeze the muscles and hold for 15 seconds then relax your muscles while counting to 30. Do this for each area until that area feels relaxed. Remember to breathe and not hold your breath.

Body Area	Action
Forehead	Furrow eyebrows.
Eyes	Close your eyes tightly.
Cheeks/Jaw	Smile as big as you can.
Shoulders	Raise your shoulders up to your ears.
Neck	Touch your chin to your chest.
Arms and hands	Ball your hands into a fist while crossing her arms across your chest.
Stomach	Suck stomach in and tighten abs.
Glutes	Squeeze together.
Legs	Start with your quadriceps then your calves.
Feet	Point your toes to your face then curl them down.

- **Try a Would You Rather workout.**
This is a fun way to get some physical activity in by choosing between two things (e.g. PlayStation or Xbox). Depending on what you pick is what exercise you complete. Try the "Would you rather?" workout below. Use the physical activity chart to look up how to do an exercise if you're not sure. Once you've completed it, do it again but picking the opposite choices.

Would you rather?	Exercise answer

 - How are you feeling about being out of school because of the coronavirus? Be sure to explain why you are feeling a certain feeling.
 - How can you use a Mindful Minute or Progressive muscle relaxation during this time?

Day 4 (Date: _____)

- Listen to some mindfulness music and create a playlist.

Have you ever listened to a song and it made you happy or triggered a memory? Music can affect our emotions and we tend to listen to music that reflects our mood. Music can also be a great strategy when we may be feeling down, anxious, overwhelmed or even mad.

Today, try listening to some music or sing a song you really enjoy. Remember to be in the present moment, not thinking about what has already happened or what will happen. If your mind starts to wander focus on the music, like the melody or the lyrics of the song, and how you're feeling. Once you're done, create a playlist of songs you like that make you happy, tend to uplift you or make you feel relaxed when you listen to them.

- Create your own Would You Rather workout.

Create your own Would You Rather workout using the Physical Activity Chart for exercise ideas.

Once you've created it, do it!

Would you rather?	Exercise answer

Internal Voice as an Influence

Part 1: Think about the Thought of the Day. Do you agree or disagree with the statement below?

You will make better decisions the more you value yourself.

In the space below explain why you agree or disagree.

Thought of the Day

How I feel about myself directly affects my behavior.

Part 2: What does your internal voice say to you? Answer in the space below.

Part 3: Create a positive “I” statement using markers, colored pencils or whatever you have around the house. Then post it somewhere you can see it daily.

Note to Teachers

This lesson was adapted from the [health.moves.minds. Power Through Empowerment: Lesson 1](#) for grades 6-8, but can easily be used for grades 9-12.

Depending on your distance learning capabilities you may want to follow up with students about this assignment. Use the example script below to continue discussion. Either by e-mail, video conference, or in the next take-home packet.

Example script: *“Who do you hear most in your head? Probably yourself. Most of us are always having an internal conversation with ourselves. Earlier we saw how outside influences can affect our decisions, but your own thoughts and self-esteem can influence your behavior as well as outside influences.”*

Discuss the following questions/scenarios:

- Use the example of a parent.
 - What if the parent is constantly negative to their child? (You are a pain, you’re stupid, you will never be anything, etc.)
 - How will that child feel about him or herself?
 - What if the parent is nurturing, loving, and positive? (You are great, I love you, you will do better next time, etc.)
 - How will the child feel about himself/herself?
- Make the point to students that it’s important to be kind to ourselves as much as it’s important to be kind to others.
- Give some of the following as potential thoughts people might think about themselves.
 - I’m smart
 - I’m pretty/handsome
 - I’m ugly
 - I’m stupid
 - I’m OK
 - I’m weak
 - I’m a good friend
 - I’m nothing
 - I’ll never be loved
 - I deserve to be loved
 - I deserve to be treated well
- How does someone’s self-esteem affect their health?
- How can a person’s internal thoughts influence their relationships with others, such as friends, parents or other classmates and peers?
