

*Please review the below system requirements and enable browser permissions prior to logging into the virtual convention platform.*

## **System Requirements**

### ***Windows Users***

- Microsoft Windows 8 or later
- Microsoft Edge 12 or later, Firefox® 35.0 or later, or Google™ Chrome 9.0 or later
- Broadband Internet Connection (3Mbps or more; 5Mbps is recommended for optimum viewing)

### ***Mac Users***

- Mac OS X 10.4.8 or later
- Safari™ 3.2 or later, Firefox® 35.0 or later, Google™ Chrome 9.0 or later
- Broadband Internet Connection (3Mbps or more; 5Mbps is recommended for optimum viewing)

### ***Mobile Device or Tablet users***

- Apple iOS version 11.0 or higher
- Google Android version 4.1 (Jelly Bean) or higher
- Broadband Internet connection with 3Mbps downstream bandwidth (for best experience)

### ***Linux Users***

- SUSE Linux Enterprise Desktop 12 or later, openSUSE 15.1 or later, Ubuntu 16.04 or later, or Fedora Core 30 or later
- Firefox® 35.0 or later or Google™ Chrome 9.0 or later
- Broadband Internet Connection (3Mbps or more; 5Mbps is recommended for optimum viewing)
- Browser Permissions

### ***Edge Users***

- Open Microsoft Edge
- Navigate to the website you want to manage
- Click the Lock icon next to the website link in the address bar
- Click the Site permissions option
- Use the drop-down menus to allow or deny permissions (such as location, camera, microphone, notifications, Adobe Flash, etc.)
- (Optional) Click the Reset permissions option
- Click the Reset button to restore the default settings
- Click the Refresh button on the site to apply the changes

### ***Chrome Users***

- Open Chrome
- At the top right, click More and then Settings
- Under “Privacy and security,” click Site settings
- Click Camera or Microphone
- Turn on or off Ask before accessing
- Review your blocked and allowed sites
- To remove an existing exception or permission: To the right of the site, click Delete
- To allow a site that you already blocked: Under “Blocked,” select the site’s name and change the camera or microphone permissions to “Allow”

### ***Safari Users***

- In the Safari app on your Mac, use Websites preferences to customize how you browse individual websites. To change these preferences, choose Safari > Preferences, then click Websites
- The settings you can customize (such as Reader and Content Blockers) are listed on the left
- To apply a setting to a website on the right, first select the setting, then choose the option you want from the pop-menu next to the website

### ***Firefox Users***

- Click the menu button and select Options
- Click Privacy & Security from the left menu
- Scroll down to the Permissions section
- Click the Settings button for the Microphone/Camera option
- Firefox displays the websites with saved Allow or Block permission
- Use the Allow/Block selector to change permission for the website. You can remove the site by selecting it from the list and click the Remove Website
- Select the Block new requests asking to access your microphone checkbox if you do not want to give any other sites access to your microphone
- Click the Save Changes button
